

Montenegro

CANYONS AND COASTLINES

Seventy peaks over two thousand meters, the southernmost fjord in the Mediterranean and the deepest canyon in Europe. Everything is located in Montenegro and in a small area like the size of the Wales. You drive on roads surrounded by mighty mountain peaks or through the deepest canyon in Europe, follow the shoreline of Lake Skadar and finally reach the magically beautiful Bay of Kotor. Montenegro has been sandwiched between East and West since the days of the Roman Empire and has been influenced by different cultures over the past two thousand years. The food offers the best of Balkan cuisine with dishes like Ćevapčići and fresh seafood paired with the powerful local wines. This tour takes you on quiet side roads to the scenic and cultural highlights of Montenegro in the Durmitor National Park, Tara Canyon Skadar Lake National Park and the Bay of Kotor.
