From Golling up to Pass Lueg, enjoy the views onto the beautiful mountain range. You will even not notice the slightly climb. The mountains are coming nearer, and the water is getting louder. You pass the so-called "Salzach-Öfen", an imposing canyon which was built through the river. At the foot of mountain Hochkönig you reach Werfen. The biggest ice cave in the world is inviting you for a loop tour through the bewitching world of shimmering ice (duration about 4 hours). A last view onto fortress Hohenwerfen before you continue to Bischofshofen. Within a few kilometres you reach St. Johann. We recommend visiting the dome with its towers and the wild romantic Liechtensteinklamm (gorge).

DAY  
4*St. Johann - Mölltal valley*

approx. 60 km + train ride

Feeling fresh and rested you start your third leg to Schwarzach im Pongau. Marvel at the pretty Schloss Schernberg on the hill above the village before hopping onto the saddle. Shortly after Schwarzach you leave the Salzach and will be accompanied by the Gasteiner Ache through the wild and romantic Gastein valley. Gather your strength before travelling uphill to the "Ausgleichsbecken", which will see you cover 2,5km with an elevation change of 130metres – you'll definitely build up a sweat. Now comes the Klamm Tunnel, where you can cycle its 1,5km on a cycle path. If you want to avoid the tunnel, you can take a train or shuttle service from Schwarzach (about a 10 km drive). Via Dorfgastein and Bad Hofgastein you cycle to the renowned spa and winter sports resort of Bad Gastein, at the foot of the Hohe Tauern, which offers a wealth of natural history and architectural sights. It is then only a stone's throw to Böckstein, where a train from the Tauernschleuse takes you to Mallnitz on the other side of the Alps in just 10 minutes (self-paid about €5/person). Back in the saddle you can enjoy rushing downhill to your hotel in the Mölltal.

## *Departure or extension*

Unfortunately you have reached the end of your journey! One thing is certain though: you can head home full of new experiences and impressions. Alternatively you could continue cycling from Villach to Triest... the Adriatic coastline is calling!

# *Tour character*

No panic! This bike path leads through flat and slightly hilly terrain, even if the surrounding mountain area is not far away. Two longer climbs can be skipped by going by train. You cycle on asphalted roads and nature paths. An about 8 km long descent leads along a road with more traffic.
